SOHAIB KHAN

Lahore, Pakistan
+92-313-7755011 khansohaib13579@gmail.com linkedin.com/in/sohaib-khan96 github.com/Sohaib12354

Education

The University of Lahore **Nov. 2021 – July 2025**
Bachelor of Science in Computer Science *Sargodha, Pakistan*

Relevant Coursework

- Data Structures
- Algorithms
- Database Systems
- Artificial Intelligence
- Machine Learning
- Computer Vision
- Software Engineering
- Operating Systems

Experience

Grand Nerds LLP **Aug 2024 – Sep 2024**
Python Developer Intern *Lahore, Pakistan*

- Developed backend modules using Python following Object-Oriented Programming principles.
- Processed structured datasets using Pandas and NumPy.
- Implemented REST APIs and JSON-based communication.
- Used Git and GitHub for version control and collaboration.

Decode Lab **Jul 2026 – Aug 2026**
Data Science Intern *Lahore, Pakistan*

- Built Machine Learning projects using Python and Scikit-learn.
- Performed data cleaning, EDA and feature engineering.
- Trained and evaluated predictive models.
- Worked with real-world datasets following industry workflows.

Projects

Face Parsing for Video Face Swapping | *Python, OpenCV, PyTorch, TensorFlow* **January 2025**

- Developed an AI-powered face parsing pipeline for realistic video face swapping.
- Applied semantic segmentation and computer vision techniques for accurate facial region extraction.

ON-Demand Mobile Application | *Flutter, Firebase, Dart* **November 2024**

- Developed a cross-platform mobile application with Firebase Authentication.
- Implemented shopping cart, inventory management and checkout functionality.

Credit Card Fraud Detection | *Python, Scikit-learn* **July 2026**

- Built fraud detection models using Logistic Regression and Random Forest.
- Applied SMOTE and feature engineering to improve prediction performance.

NLP Sentiment Analysis | *Python, NLTK, Scikit-learn* **July 2026**

- Built a sentiment classification model using TF-IDF and Machine Learning.
- Performed preprocessing, vectorization and model evaluation.

Technical Skills

Languages: Python, SQL, Dart, JavaScript, HTML/CSS/JavaScript, Bootstrap, REST APIs
Tools:Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Postman
Mobile Development: Flutter, Firebase, Firestore
Machine Learning: Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy, OpenCV, NLP, Deep Learning

CERTIFICATIONS

- Data Science Internship Certificate
- Recommendation Letter
- Customer Support Executive
- Graphic Designing
- Freelancing
